No. 46.—The following Circular regarding the space to be left uncultivated below the bunds of tanks and channels is re-published for general information together with the rules recently framed on the subject for the guidance of Government Officers:—

(Circular Nos. 41 to 43, dated 6th June 1870, from the Under-Secretary to the Chief Commissioner of Mysore, Public Works Department, to the Superintendents of Divisions.)

"I am desired by the Chief Commissioner to inform you that the space to be left uncultivated below the bunds of tanks and channels has been reduced from 5 yards to 10 feet, and to request that you will issue the necessary orders to prohibit cultivation or the planting of hedges or other obstructions and the removal of the latter where already planted within the limit. When distributing channels run parallel with the bund and close below it, the outer toe of their bunds may be conveniently placed so as to form the line of demarcation, which the ryots are to be forbidden to encroach upon under pain of being fined or otherwise punished."

Rules.

1. In Taluks settled subsequent to the issue of the orders of 6th June 1870, the prohibition of cultivation within 10 feet clear from the base of tank bunds should be strictly enforced. Any individual cases in such Taluks in which survey boundary marks have been placed within the 10 feet margin above referred to, should at once be ascertained by the Deputy Commissioner and reported to the Superintendent of Revenue Survey in view to the necessary rectification being made.

II. In Taluks settled previous to the issue of the orders of 6th June 1870—

(*a*) all survey boundary marks erected on the tops or slopes of tank bunds should at once be removed. The only exception to this general rule would be in the case of bunds of totally ruined and disused tanks, not likely to be repaired and made useful for irrigation purposes in future,

(*b*) the boundary marks to be removed from tank bunds under the last preceding clause should be placed clear of the base of the bund, and at such a distance therefrom not exceeding 10 feet as may be absolutely necessary,

(*c*) the area of an occupied survey number which is resumed by Government by the above alteration of boundary marks should, when under actual cultivation, or when the same has been assessed, be acquired by the payment of reasonable compensation. When such area is included kharab and has not been brought under cultivation, no compensation shall be payable therefor.
